**CONCLUSION:** Presentation will be done from Zagreb and we will do live demonstration

**ACTION:** Bojan will make and hold first part of the presentation.

**ACTION:** Petar will hold live demonstration, but will make backup presentation with images.

### 2. Visual Studio 2012

Due to some problems with enum values in our project (EF4 doesn't support enums in database), we concluded we need to change to Visual Studio 2012 and Entity Framework 5. We discussed if we have time to do it before beta prototype presentation.

**CONCLUSION:** We concluded everyone should change to VS2012 and EF5.
