

Minutes of Meeting

Project	Cycling Advocacy	Date	13-12-2016
		Start-end time	12:00 - 13:30
Responsible	Dominik Kotarski	Location /type	Google Meet

Attended by	Location	Remarks
Dominik Kotarski	FER, Croatia	Developer
Carlo Casiglia	Polimi, Milan	SCRUM Master
Federico Ferri	Polimi, Milan	Developer
Elena Bakuleva	Polimi, Milan	Developer

1. 12.12.2019 meeting catchup

Dominik and Carlo fill Federico in about yesterday's meeting.

CONCLUSION: N/A

ACTION: N/A

2. Path analysis discussion

There is a motion file with a lot of points. Take two points from the gps data and take all the motion data points timestamp wise and calculate a score from that.

CONCLUSION: We have a general idea on how to do path analysis with the score as a result.

ACTION: Carlo and Dominik will work on path analysis and try to get it working for the beta prototype.

3. Path merging (trip analysis) discussion

Federico is working on path merging and trip analysis

CONCLUSION: N/A

ACTION: Federico will continue working on path merging and trip analysis

4. FixMyStreet integration

Currently fixmystreet is not a priority. We should try to access the api on a dummy server without customization. Boot up a server and try to do some API requests

We need to ask Tom about fixMyStreet. What does he know, and what are his plans with this. What about the existing fixmystreet website in croatia. Do we need to customise the instance?

CONCLUSION: We need to do more research on fixMyStreet and need customer feedback about it.

ACTION: Coordinate with product owner (Sandra) and send an email to Tom about fixMyStreet

5. Backend topics for beta prototype presentation.

Dominik: Deployment, motion data analysis

Carlo: Motion data analysis,

Elena: Core part, slide about fms

Federico: Trip analysis algorithm

CONCLUSION: Each team member has their own slides to make

ACTION: Create the slides for the presentation.
