1. ROLES IN OUR TEAM

We speak about what role must take each person in our team.

CONCLUSION: we decided some roles

- Stefania: Project Leader
- Marko: Team Leader
- Gregorio: Documentation Manager
- Tomislav: SVN manager
- Other roles has to be defined yet

2. ARCHITECTURE

We speak about the architecture. The first idea was to develop a system with two business logics, one for web application and one for mobile application but someone of us aren't agree so we sent a mail to the mentor.

CONCLUSION: we decide to implement a system that has one business logic either for web and mobile application.
