

Minutes of Meeting

Project	POSE	Date	25/11/2010
		Start-end time	18:00 – 19:30
Responsible	Stipe Grbić	Location /type	Videoconference (Germany, Croatia, Sweden)

Attended by	Location	Remarks
Marie	Germany	Attend
Andre	Germany	Attend
Adnan	Germany	Absent
Jan	Germany	Attend
Dennis	Germany	Attend
Joachim	Germany	Attend
Shaibal	Sweden	Attend
Joanne	Sweden	Attend
Antonio	Sweden	Attend
Ivica	Croatia	Attend
Jasenko	Croatia	Attend
Marko	Croatia	Attend
Stipe	Croatia	Attend

1. Introduction

Jan held the introduction of the meeting.

2. Revision of last week

Marko said that Croatian team members had three exams last week, so nobody had time to work on DSD project.

Shaibal said that he was sick for a few days so he couldn't do much. He studied about unit testing for eclipse and worked with Antonio on comparison view.

Joanne said that she's been to France so she couldn't do much either. She started writing project's documentation.

Antonio created first version of comparison view.

3. Current progress

Marko held demonstration of the work done by Croatian team, and Antonio from Swedish team.

Croatian team created editor for pattern catalog editing. Currently it misses some functionality like pattern filtering, deleting of descriptions and relations.

Swedish team created catalog, search and comparison views. Catalog view must be adjusted with patterns page in editor. Search and compare view are not enough functional yet, but once finished, they will be adjusted with search and compare pages in editor.

Jan talked about use cases. We saw use cases and their statuses. Marko and Jan agreed to talk about specification use cases in the next few days.

About project testing we agreed that it's the next thing we must do. Ivica suggested SWTbot testing tool to be used and Shaibal studied about JUnit testing.

Jan reminded everybody about acceptance test plan document that is to be delivered on 10/12/2010. There wasn't news about work division, everyone knows what is to be done.

4. Open questions

Jan asked if anyone have any question and nobody had any.

5. Leader of next meeting

Marko is the next meeting leader.
