| Attended by | Location | Remarks |
|-------------|----------|---------|
| Marie | Germany | Attend |
| Andre | Germany | Attend |
| Adnan | Germany | Attend |
| Jan | Germany | Attend |
| Dennis | Germany | Attend |
| Joachim | Germany | Attend |
| Antonio | Sweden | Attend |
| Shaibal | Sweden | Attend |
| Joanne | Sweden | Attend |
| Jasenko | Croatia | Attend |
| Ivica | Croatia | Attend |
| Marko | Croatia | Attend |
| Stipe | Croatia | Attend |

1. What we did

- Comparison view, composite, border composite, GEF relation view
- Problems with IPath
- Review of work
- Test cases
- Presentation looks fine, use cases, test cases
- Remarks under test cases, should it be in the final version
- What are the remarks, are intended for initial usage
- What should be presented

2. What is done

- Descriptions are implemented
- Description of category should show the patterns it contains
- Search for pattern variant view
- Comparison view needs allignment of description parts

- When new pattern variant is created, dialog should only ask for name.
- Description view has a button in the toolbar that puts to the component slot one.
- Most teams did JUnit tests
- Until monday proposals are to be sent.

3. Need to do

- Comment to toolbars
- Put comments in categories in one extension point (Antonio will do that)

4. What to do this week:

Marko: finish EMF commands,
make save work,
dataloader

Stipe: migrate search and comparison to editor,
pattern facility,
remove description part

Jasenko: insert pictures,
open files out of workbench

Ivica: change add keyword dialog

Joanne: should do icons,
update outline documentation

Shaibal: start how to generate diagrams

Antonio: diagram generation,
put command into categories

- Use GEF or Draw2D
- GEF and SWT graphics until next meeting
