

Minutes of Meeting

Project	Car Gossip	Date	7.11.2012.
		Start-end time	16:00 – 18:00
Responsible	Dino Jurina	Location /type	Location: Västerås, Zagreb Type: Skype instant messaging

Attended by	Location	Remarks
Achille Penna	Västerås	
Mohammed Alserr	Västerås	
David Reypka	Västerås	
Nikola Vranešić	Zagreb	
Matija Korpar	Zagreb	
Dino Jurina	Zagreb	

1. Discussion about presentation from 6. 11. 2012.

Slides were good, but the discussion part could be solved better.

CONCLUSION: More practice for next time. Consider professor's critics.

2. Documents

Documents aren't finished yet and have some errors.

CONCLUSION: Our first priority for now should be to review and update documents, especially Design description.

ACTION: Everyone should read whole Design description document, comment it and correct his on part. On Thursday at 6 pm, we'll have next meeting where the changes will be discussed.

3. Framework for offline mode

Matija had a task to choose the framework which will be used for the maps when the mobile application is working in the offline mode.

CONCLUSION: Mappanel will be used.

4. Simulator

CONCLUSION: Simulator will have two screens. On first screen user will choose amount of cars, time and radius of simulation. On the second screen the simulation will be shown.

5. Parser

David finished his work on parser and gave us some conclusions regarding it.

CONCLUSION: We should use some non-relational database for storing data coming out of parser because it will be more efficient because we have no relations.

ACTION: David will try using MongoDB.
