

Minutes of Meeting

Project	Real-time Bridge Monitoring	Date	21.11.13
		Start-end time	19:00:00 PM – 20:07:00 PM
Responsible	Dzana Kujan	Location / type	SWE – CRO – IT - GER

Attended by	Location	Remarks
Dzana Kujan	Västerås	
Andrea Bottoli	Milano	
Marko Brčić	Zagreb	
Miraldi Fifo	Västerås	
Nikola Radisavljevic	Västerås	
Jörn Tillmanns	Berlin	
Lorenzo Pagliari	Milano	

1. Tasks done and problems encountered.

Everyone is doing what they are supposed to. Lorenzo and Andrea are working on the math engine, Marko is working on the Parser, Jorn made some changes to the project by adding code for pictures, and Nikola, Dzana and Miraldi are working on the presentation layer.

2. Supervisory meeting summary

Andrea informed the group about the supervisory meeting that he had 21.11.2013.

CONCLUSION: We are doing a good job with our work :)

ACTION: We need to think about deployment, that is, how we will deliver the executable to the customer.

3. Alpha prototype presentation.

We talked about the presentation of the alpha prototype and what should be included there.

CONCLUSION: The presentation should contain:

1. What was our goal?
2. What have we done?
3. What are the results?
4. The effort
5. Some screenshots of the project
6. A demo

ACTION:

Dzana and Nikola will prepare and hold the presentation.

4. Discussion about scheduler.

We discussed about how to schedule the parsing.

CONCLUSION: We will use quartz for scheduling.

ACTION:

Ghazal will work on this. If not, then Andrea and Lorenzo will take over.

5. Test cases.

We talked about the testing phase and how we want to implement it.

CONCLUSION: The test document should be made for functional/acceptance testing.

ACTION:

Miraldi should start working on the document.

6. Updating the documentation.

ACTION:

Lorenzo, Andrea and Jorn will work on updating the design document. Nikola and Dzana will update the requirements document. Also, everyone should give feedback on the current documentation.
