### 1. User Authentication System

For the beta prototype, User Authentication System should be implemented.

**ACTION:** Jorn is working on it and he will integrate it with the front end with Dzana and Nikola

### 2. Integration of the DB with the mathematical stuffs

Marko and Lorenzo will do this integration, after checking the math engine.

### 3. Tests, Test Classes and Test Documentation

Miraldi explained what he did with test cases and what he is going to do more. He will also prepare Acceptance test

**CONCLUSION:** Miraldi will finish the test documentation.

### 4. Web Pages status

Dzana and Nikola explained what they are doing on a front end and what they will work on in next period.

**CONCLUSION:** Dzana and Nikola need some back-end functions for improvement of frontend.

**ACTION:** Nikola and Dzana will continue working on those in next period.

### 5. Final Documentation:

For the final documentation we need user manual and instalation manual.

**CONCLUSION:** Marko, Jorn and Lorenzo are responsible for installation manual and for user manual Nikola, Dzana and Andrea.
