

Minutes of Meeting

Project	CSYLLABUS	Date	2017-11-03
	Meeting with supervisors	Start-end time	2:00 PM – 3:00 PM
Responsible	Thomas Benetti	Location /type	Hangouts

Attended by	Location	Remarks
Ivana Bosnic	Skype	With Emanuel and Filip
Raffaella Mirandola	Skype	
Zvonimir Relja	Skype	
Filip Turcinovic	Skype	
Emanuel Guberovic	Skype	
Matej Vukosav	Skype	Not speaking
Adrien Roques	Skype	
Thomas Benetti	Skype	
Sebastian Mayoral	Skype	Microphone problem

1. What's up?

This week we've done the primary structure of database, API and explorer page :

- Backend starter app in Django
- Database migration, following database description, fer parser
- Creation of services on the back-end

Development is done separately for back-end and front-end.

2. Presentation of explorer page mockup to supervisors

Sebastian presented the explorer page to the supervisors with its main functionalities :

- Search of courses
- "star" is to evaluate syllabus
- "comment" to comment the syllabus

3. Data sources

For POLIMI, Thomas will contact Luciano Baresi the referent teacher for computer science students in Erasmus. Not available this week but an e-mail will be sent.

For MDH, the courses are in HTML Forms and Filip will contact them to get courses data.

Thomas will also ask his French university for courses data.

4. Sprint report

A document has to be uploaded for sprint report saying what was done in this sprint, saying how much time it took for each person and for each task. (At least as a sprint report)

Action: Invite Ivana and Raffaella to our KanbanFlow boards.

5. Deadlines

The supervisors reviewed our project plan document and told us a few things :

- We need to have more detailed sprints and deadlines, with what will be included in the prototypes also.
- Our risk table has to be more complete and should include risks about the team, about the data collection, etc..

6. Other subjects

We should add continuous integration as soon as possible, and also define code conventions.

7. Next meeting

Ivana will be in the us (8.00 AM there) for the meeting so maybe she won't be available.
