Sebastian Mayoral	Skype	

### 1. Current tasks

- Thomas : Fixtures for University of L'Aquila data. (xml to json + load json to python)

All the other tasks on explorer are done.

### 2. Comparator sprint planning

We defined tasks for comparator and some questions also :

- Create services on the back-end
- Design mockup for front-end
- Add button on course card on explorer to "Add course to comparator"
- Create Mock API to compare several courses
- Include testlint
- Review next week schedule (because of exams in FER side)
- Do we compare courses or syllabuses ?
