

Minutes of Meeting

Project	CSYLLABUS	Date	2017-11-19
	Team meeting	Start-end time	4:00 PM-4:30 PM
Responsible	Thomas Benetti	Location /type	Hangouts

Attended by	Location	Remarks
Zvonimir Relja	Hangouts	
Matej Vukosav	Hangouts	
Adrien Roques	Hangouts	
Thomas Benetti	Hangouts	
Sebastian Mayoral	Hangouts	Can't speak

1. Current tasks

- Matej :
 - Done : Updated requirements document, refined product backlog on kanbanflow
 - To do : Docker
- Zvonimir :
 - Done : Searched how to compare syllabuses
 - To do : Back-end services for comparator, refactor existing code
- Adrien :
 - Done : Design mockup for comparator, send e-mails to French universities to get data
 - To do : Front-end services for comparator
- Sebastian :
 - Done :
 - To do :
- Thomas :
 - Done : Parser for L'Aquila University courses
 - To do : Contact French universities to get data, SCORE registration

2. Comparator

Adrien and Sebastian already did some mockups for the comparator web interface.

The results table should include :

- In the left, the home faculty with the courses of the student for the semester.
- In the right, the most relevant similar courses for the student and that he can enroll to, with universities attached. He can also filter by a university he wants to go.

3. Alpha prototype

We talked about alpha prototype and what it should include regarding our current schedule :

- Explorer fully done
- Comparator
- More data from universities

4. Next deadlines

Comparator front-end services : 2017-11-26

Comparator back-end services : 2017-11-26

Alpha prototype presentation : 2017-11-28B

5. What about beta prototype ?

We are thinking of working on some features for beta prototype :

- Plugin : where universities can easily upload their syllabuses. **High priority**
- Social part : **Medium priority**
