

Minutes of Meeting

Project	E-Health service	Date	25.10.2012
		Start-end time	21:30-23:00
Responsible	Vedran Šikić	Location /type	Location: Zagreb, Milano Type: Skype written chat

Attended by	Location	Remarks
Gregorio	his house	left at 22:40
Marko	his house	
Tomislav	his house	
Vedran	his house	

1. Possible questions about requirements

We were discussing what we should do with possible questions about given requirements.

CONCLUSION: Everyone should post their questions in Google group topic by Friday, October 26th.

2. Programming language for web application

We were discussing if Gregorio and Stefania should develop web application in Java or C#.

CONCLUSION: Gregorio and Stefania should read and try few examples of web applications in C#, and see what is better for them.

3. Virtual machine requests

We were discussing what OS and software we will need for our project, and what will we send to Marin as our request.

CONCLUSION: We will use Windows Server, IIS and MSSQL or MySQL database. Also, what web server will be used will be decided after Gregorio and Stefania decide what programming tool they want to use. Tomislav will be responsible for virtual machine.

ACTION: Tomislav will send an e-mail to Marin with our request.
