- Swedish side should look into verifying FB account
- Damir is unanimously chosen to be the scrum master, again :)
- We will make the skeleton of the presentation today, and then complete it tomorrow.
- Vlatko will send an email to the customer, informing him about the progress of the second sprint and ask him if he wants a meeting
- Alex should generate the .apk package for the client

- Alex should fix the requirements document with the results from the SCase requirements annotation tool according to the client's requirements
