### 1. Explanation of Use Cases :

All the Use cases were explained to Project Coordinator Marin, by Soumya.

**Conclusion:** Marin pointed out some modifications to the Use Cases.

**Action** – The Use Cases were modified in the Requirements Definition document.

### 2. Discussion about Non Functional Requirements:

Marin guided the team to include certain Non Functional Requirements within the Website Design.

**Action:** The Non Functional Requirements were added up to the Requirements Definition Document.

### 3. Requirements and Design Presentation:

Marin suggested and guided the team how to prepare for the presentation regarding the Requirements and Design of the Project.

**Conclusion:** Team decided upon the members who will be presenting the requirements and the design.

**Action** – Design Specification Slides were assigned to Siblee.
