

# Minutes of Meeting

<b>Project</b>	<b>Real-time Bridge Monitoring</b>	<b>Date</b>	04.11.13
		<b>Start-end time</b>	08:00:00 PM – 08:55:00 PM
<b>Responsible</b>	Marko Brcic	<b>Location / type</b>	SWE – CRO – IT

Attended by	Location	Remarks
Dzana Kujan	Västerås	
Marko Brčić	Zagreb	
Miraldi Fifo	Västerås	
Nikola Radisavljevic	Västerås	
Jörn Tillmanns	Västerås	

## 1. Status of the documentation

We discussed about the requirements and design document. What is each team member's status on his/her part. We came to conclusion that we were a bit lazy, but some parts were actually started :-)  
We have initial drafts of ER diagram and class diagram.

**CONCLUSION:** We have only two more days to work, so we should be serious about things we have to do.

**ACTION:** Each of the members should continue to work intensively on his/her part

## 2. Change in the design

We discussed about change in the design and technologies used. We were thinking if it is better to develop the whole thing in java as java web application deployed on tomcat, or should we divide and leave the parser part in python as initially stated

**CONCLUSION:** We will still take time and decide later

**ACTION:** Each of the members should think about this major change in the design and say their opinion as soon as possible
