User interface

Armindo and Dino produced additional html pages. All of the pages planned for this phase of the project has been done. Next thing to be done is to add the created pages into the project.

Conclusions
- Dino and Armindo produced additional html pages.
- UI part is generally on time.
- Integrate with services ASAP

Actions

- Dino should finish the HTML pages migration into the project. Deadline 2012-11-19.
- Armindo will help him in the process of migration.
- Further actions after migration is complete.

Back end (service layer and database)

All the services specified from the UI team have been made.

Conclusions
- Game logs for most of the players available. For big part of players, there is no information about the game logs.
- Wait for service request from the UI team

Actions

- Predrag should talk with the customer about the issue with the player game logs. No strict deadline.
- Wait for service request and specifications from the UI team.

Collecting additional information for the application

We need to provide pictures from players and team logos for the application.

Conclusions
- One team member should be responsible for finding and downloading free NBA team logos.
- Automatize the process of collecting pictures for players.

Actions

- Bal is responsible for finding and downloading free NBA teams logos. Deadline 2012-11-20.

SCORE application document

Andreas and Predrag were responsible for creating the document for applying to SCORE contest.

Conclusions
