## 1. Project status

Talked about the current status of the project.

**CONCLUSION:** Project is slightly behind. Few changes need to be made to make the system more efficient and usable.

**ACTION:** LA will help the Taxi client team with the refactoring, optimizing code, etc. LA will also help integrating new UI to Taxi client. FK will make few changes to the Taxi client regarding zones, etc.

## 2. Meeting with the supervisor

Discussion about what will the team show to Prof. Di Nitto.

**CONCLUSION:** Determined which features are ready to be showed.

## 3. Planning the next iteration

Discussion about which features we will introduce to the system in the next sprint.

**CONCLUSION:** Determined which features will be in the next SCRUM sprint. Explained some features in more details.

## 4. QA team

**CONCLUSION:** Determined who will be the team for QA for next iteration.

**ACTION:** IP and MC will be the QA team.
