1. Discussion about Beta presentation

   The team discussed topics that have to be presented on Tuesday, and agreed that almost nothing changed from our alpha prototype presentation. Therefore we decided to make the presentation part shorter and say only what has changed since the alpha.

   Conclusion:
   - We will say that we are using Trello more now
   - We will say that Trello has replaced our daily updates on Google group

2. Discussion about Beta presentation demo

   The team discussed should we have a live demo or video for the presentation.

   Conclusion: We decided that we will go with video again, because of the same reasons we had a video in alpha presentation.

3. Discussion about presentation home

   The team discussed what should be the presentation home.

   Conclusion: Since Fabio is working on the taxi client it would be better that he presented the demo part of the Beta prototype presentation. Because of that Italy will be presentation home.

4. Making the video for demo

   The team discussed who will make the video for the demo and what should we put in the video.

   Action:

- We will all meet at Sunday at 17:00h and try to test everything together.
- Fabio and Luca will then try to make videos

5. Discussion about features

There are still some things that we haven't implemented and we discussed whether to show it in Beta or not.

Action:
- Lyudmil will make some smaller changes to UI tonight
- We can work on the bigger changes, but we decided not to show them in the demo

6. Discussion about Minutes of Meeting

We have a couple of MoM's that we haven't written on time.

Action:
- Igor will write MoM for the meeting on Tuesday
- Jelena will write MoM for this meeting
- Leon will upload recordings of the meetings so someone will write MoM's for those meetings also
