# 1. Introduction

## 1.1 Purpose of this document

The purpose of this document is to present test results in order to determinate if the application meets predetermined requirements and functionalities.

## 1.2 Document Organization

The document is organized as follows:

- 1. Introduction: it defines a general overview of the project and guidelines for understanding the Test Report
- 2. Referenced Documents: it defines the documents used to prepare Test Report
- 3. Test Cases: it defines the test cases and their results

## 1.3 System Overview

The goal of this project is to develop an application that allows to schedule events and meetings better than those currently available. This application will manage to merge the information from all attendances calendars and manage to find a free time slot that fits everyone. MeetMe planner will be able to draw information from Google Calendars to provide enough data for finding an appropriate time slot for the meeting. And the application will propose a time slot by respecting the privacy and security of the shared attendances calendars i.e. with minimum disclosure of the attendance plans.

## 1.4 Intended Audience

The intended audience for this project is:

- Team Members
- Team Supervisors (Ivana Bosnić (FER) and Elisabetta Di Nitto (POLIMI))
- Official Project Customer (Michal Young)
- Other Project Customer (Professor Vannutelli)
- Stakeholders
