## 2.2 Comments and Recommendations

### 2.2.1 Critical failures

During the testing various bugs for example flash card creation, false links and etc were discovered and were assigned to the concerned developer which were corrected latter. After corrections, the system was tested again to achieve the optimality.

### 2.2.2 Serious Failures

In beta version of Taraxacum the top menu had a link called about, after it was clicked the whole application was crashing. This was sorted out and fixed. All the bugs were later tested carefully.

### 2.2.3 Minor failures

Quite a few bugs regarding layout of the application were discovered. For instance; text format, buttons/ input textboxes were not placed properly, tables border were going out of the page scope etc.
