

Week Report

| | | | |
|----------------|----------------------|-------------|------------|
| Project | Call Calendar | Week | 46th |
| Name | Damian Marušić | Date | 17.11.2014 |

Achievements

- Had meeting with customers where we introduced preliminary project solution and discuss current requirements
- Got more detailed requirements
- Worked on and submitted Requirements Definition Document
- Worked on and submitted Design Description Document
- Started working on database modification
- Set up server with database
- Worked on and submitted Status presentation
- Made initial division of work for developing

Problems

- Still need some more information from customers to complete modification of database
- Linking server with Github still not finished

Plans for the next week

- Have meeting with customers and get missing information for completing database design
- Have server running and ready for developing and testing
- Finish database modification
- Set up local environment
- Start with implementation of high priority tasks
-
