Action List

Task	Responsible	Comment
Continuing implementation of the remaining views for the mobile application.	Giulio Cattivera, Aleksandra Salikiryaki, Gijs Bos	The development of the views for the mobile application will be continued. Some bugs that we have found and are not yet fixed will be fixed. The GUI for some views like contacts, events, should be made more sophisticated.
Implementation and improvement of the functionalities proposed by the application (downloading gift, buying gift, gift filtering, facebook login, logout, buying gifts, notifications, filtering gift).	Giulio Cattivera, Aleksandra Salikiryaki, Gijs Bos	The functionalities related to downloading gifts, buying gifts should be improved. The integration with Facebook login should be improved. Logout from the app should be implemented. Notifications should be implemented. A filter for gifts should be implemented.
iTunes integration	Ana Stepić	Implement iTunes integration as another content provider. This includes item browsing and search.
Search by item name and item id	Ana Stepić	Implement search in existing content providers by item Id and item name so that the frontend can display data about a given gift, and so that recommendation engine can find similar items by name of facebook book/movie.

Comments / Experiences / Problems

Also this week for the swedish side was quite difficult due to academic commitments, this delayed a little bit the progress of the front-end.
